Why Work for Us?

The Federal Railroad Administration’s mission is to enable the safe, reliable, and efficient movement of people and goods for a strong America, now and in the future.

The Federal Railroad Administration (FRA) promulgates and enforces rail safety regulations; consolidates government support of rail transportation activities; administers financial assistance programs; conducts research and development in support of improved railroad safety and efficiency, and national transportation policy, including improved intercity passenger service.

FRA is committed to fostering a diverse, highly skilled workforce capable of meeting or exceeding our strategic goals with efficiency, innovation, and a constant focus on better serving our customers.

You will serve as a Railroad Safety Inspector (Grade Crossing and Trespasser). As an inspector, you will enforce Federal safety and health regulations that apply to the railroad industry in order to drive improvements in railroad safety. The Grade Crossing and Trespass Outreach Inspector (GXI) is required to conduct independent inspections of all types of highway-rail grade crossings, proceeds and programs for the purpose of determining compliance with Federal rules and regulations, to write reports of these inspections, and to recommend institution of enforcement/compliance actions when violations are found. Additionally, the GXI is responsible to investigate trespassing incidents on railroad property and highway-rail crossing collisions to drive programs to prevent trespassing on railroad property and highway-rail crossing collisions both of which lead to accidents and casualties.

Summary Of The Essential Job Functions:  As a Railroad Safety Inspector (Grade Crossing and Trespass), you will be required to:

- Investigates independently, or as part of a team, grade crossing collisions and trespasser incidents/accidents as assigned. Prepares any necessary analysis and recommendations to Senior Managers and Specialists.
- Where noncompliance of Federal rules, regulations, or standards is noted, the inspector initiates immediate correction and, if in the opinion of the inspector, the condition is such as to present a serious hazard, a violation report is issued. The incumbent may then be required to appear as the expert witness in a court trial.
- Represents the FRA and District while participating in initiatives, studies, surveys, reviews, promotions, etc., regarding highway-rail crossing and trespasser programs with local communities, states, the railroad industry and FRA’s safety partners. Represents FRA before state and local legislatures and planning bodies, as assigned, providing information and accurately communicating Departmental policy regarding crossing and trespasser strategies.
What Are The Minimum Qualifications For This Position?

You must have at least one year of specialized experience in or directly related to the essential job functions described above. For Federal employees this experience must have been at the next lower grade level. If you want us to consider experience you obtained outside the Federal Government, it must have been at that same level of complexity. The Qualification Standards state you MUST have demonstrated knowledge in the following areas:

- Broad knowledge of railroad safety concerns in the areas of track structure, roadway workers, bridge workers and “right of way” facilities. This also includes but is not limited to the construction and maintenance of track structure, bridges, culverts and other track-supporting structures that effect the safe operation of railroad rolling stock.
- Broad knowledge of the safety, economic, and practical operating issues involved in designing, constructing, and maintaining track systems and related structures; as it relates to 49 CFR Part 213 and Part 214.
- Comprehensive knowledge of the properties and limitations of the material used in railroad track and related roadway structures under various environmental conditions
- Practical knowledge of the characteristics of Continuous Welded Rail (CWR) and knowledgeable on adjusting and maintaining CWR in a safe manner.
- Skill to write clear, concise and complete narrative reports of all assignments and investigations performed, this includes review and editing of documents and familiarity and knowledge of electronic devices (i.e. computer, tablet) for said purpose.
- Comprehensive knowledge of railroad operating rules that affect the safety of railroad employees, and the inspector personally, while working on or near active railroad tracks to avoid being struck by moving trains or other railroad equipment and to enforce the regulations appertaining there to.

What Are The Desired Knowledge, Skills And Abilities For This Job?

See the Qualification Requirements listed above.

Other Special Job Requirements
